# RUCKS Engineering Projects for new customized machine-concepts

## Your possibilities

- **take opportunities:**
  - innovate products by using new materials
  - competitive products by new concept solutions for production lines
- **work out of concepts:**
  - definition of requirements / goals
- **elimination of risks:**
  - customized and optimized master plan by RUCKS Engineering Projects

## Contents

<b>Boundary conditions</b>	<b>Handling systems / Production lines</b>	<b>Cycle time / Economic efficiency</b>
<b>Logistic</b>	<b>Product flexibility</b>	<b>FEM simulation</b>

## course of action

## Project partners
